|                                    |                             |
|                                    |                             |

**Additional information:**

Contains nickel and chrome. May cause allergic reactions. This article corresponds with the changes to 4th January 2022. the EDI Regulation on Mucosa, Skin and Hair Contact (HKV, SR 8107.023.41) and ResAP (2008) 1 [state]

#### 4 First aid measures

**Description of first aid measures**

**General information**

No special information or action required.

**After inhalation**

Get access to the fresh air; consult doctor in case of complaints.

**After skin contact**

Product does not irritate skin; consult doctor in case of allergic.

**After eye contact**

Wash opened eye for several minutes under running water.

**After swallowing**

If any symptoms persist - consult doctor.

**Information for doctor treatment**

**Most important symptoms and effects, both acute and delayed**

No relevant information available.

**Indication of any immediate medical attention and special treatment needed**

No relevant information available.

#### 5 Firefighting measures

**Extinguishing media**

**Suitable extinguishing agents**

CO<sub>2</sub>, foam, powder or water spray. Fight larger fires with water spray or alcohol resistant foam

**Special hazards arising from the substance or mixture**

No relevant information available.

**Advice for firefighters**

**Protective equipment**

No special protective equipment required.

#### 6 Accidental release measures

|   |  |
|---|--|
| <b>Personal precautions, protective equipment, emergency procedures</b> | Not required   |
| <b>Environmental precautionary measures</b>                             | Dilute with plenty of water.<br>Do not allow to enter sewers or ground water   |
| <b>Methods for containment and cleaning</b>                             | Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust)  |
| <b>Reference to other sections</b>                                      | Go to Section 7 for information on safe handling.<br>Go to Section 8 for information on personal protection equipment.<br>Go to Section 13 for disposal information. |

## 7 Handling and storage

### Handling

|                                      |                              |
|--------------------------------------|------------------------------|
| <b>Precautions for safe handling</b> | No special measures required |
| <b>Fire and explosion protection</b> | No special measures required |

**Conditions for safe storage, including any incompatibilities**

### Storage

|   |  |
|---|--|
| <b>Requirements to be met by storerooms and receptacles</b> | Recommended to store in cool and dry place |
| <b>Information about storage in shared storage facility</b> | Recommended to store in cool and dry place |
| <b>Further information about storage conditions</b>         | None                                       |
| <b>Specific end use(s)</b>                                  | No relevant information available          |

## 8 Exposure controls/personal protection

|   |  |
|---|--|
| <b>Additional information about design of technical facilities</b>            | No relevant information available; See paragraph 7   |
| <b>Control parameters</b>   |  |
| <b>Ingredients with limit values that require monitoring at the workplace</b> | Product does not contain any relevant ingredient quantities with critical values that have to be monitored at the workplace  |
| <b>Exposure controls<br/>Personal protective equipment</b>                    |  |
| <b>General protective and hygienic measures</b>                               | Standard precautionary measures are mandatory when handling chemicals  |
| <b>Respiratory protection</b>   | Not required   |
| <b>Protection of hands</b>  | Glove material has to be impermeable and resistant to the substance.<br>No recommendation data for the glove material can be given. Use correct glove material with consideration of the penetration times, rates of diffusion, and degradation. |

**Material of gloves**

The selection of suitable gloves does not only depend on the material, but also on further marks of quality given by the manufacturer. Glove material resistance can not be calculated in advance and has to be checked shortly prior to the application

**Penetration time of glove material**

Glove lifetime and break conditions must be pointed out by the manufacturer.

**Eye protection**

Goggles are recommended upon refilling the substance

## 9 Physical and chemical properties

### **Information on basic physical and chemical properties**

#### **General Information**

#### **Appearance**

- Form Fluid
- Colour Colour

#### **Odour**

- Odour threshold Weak, characteristic

#### **pH-value at 20 °C**

Not determined

#### **Change in condition**

#### **Melting point/freezing point**

Undetermined

#### **Initial boiling point and boiling range**

76 °C

#### **Flash point**

>60 °C

#### **Flammability (solid, gas)**

Not applicable

#### **Decomposition temperature**

Not determined

#### **Auto-ignition temperature**

Product is not selfigniting

#### **Explosive properties**

Product does not present an explosion hazard

#### **Explosion limits**

- Lower Not determined
- Upper Not determined.

#### **Vapour pressure**

Not determined

#### **Density at 20 °C**

1.6 g/cm<sup>3</sup>

#### **Relative density**

Not determined

#### **Vapour density**

Not determined

#### **Evaporation rate**

Not determined

#### **Solubility in / Miscibility with water**

Fully miscible

#### **Partition coefficient: n-octanol/water**

Not determined

#### **Viscosity**

- Dynamic Not determined
- Kinematic Not determined

#### **Solvent content**

- Organic solvents 13.0 %
- Water 9.0 %
- VOC (EC) 8.00 %

#### **Solids content**

3.2 %

#### **Other information**

No further information available

## 10 Stability and reactivity

|   |   |
|---|---|
| <b>Reactivity</b>                                       | No relevant information available.  |
| <b>Chemical stability</b>                               |   |
| <b>Thermal decomposition / conditions to be avoided</b> | Decomposition is not applicable to this product if used according to specifications |
| <b>Possibility of hazardous reactions</b>               | No dangerous reactions known.   |
| <b>Conditions to avoid</b>                              | No relevant information available.  |
| <b>Incompatible materials</b>                           | No relevant information available.  |
| <b>Hazardous decomposition products</b>                 | Does not contain dangerous decomposition products                                   |

## 11 Toxicological information

|  |                                    |
|--|------------------------------------|
| <b>Information on toxicological effects</b>                                      |                                    |
| <b>Acute toxicity</b>  | Classification criteria is not met |
| <b>LD/LC50 values relevant for classification</b>                                | 64-17-5 ethanol                    |
| <b>Oral</b>  | LD50, 7,060 mg/kg (rat)            |
| <b>Inhalative</b>  | LC50/4 h, 20,000 mg/l (rat)        |
| <b>Hamamelis Virginiana</b>  |                                    |
| <b>Oral</b>  | LD50, 7,060 mg/kg (rat)            |
| <b>Inhalative</b>  | LC50/4 h, 20,000 mg/l (rat)        |
| <b>Primary irritant effect</b>   |                                    |
| <b>Skin corrosion/irritation</b>   | Classification criteria is not met |
| <b>Serious eye damage/irritation</b>   | Classification criteria is not met |
| <b>Respiratory or skin sensitisation</b>   | Classification criteria is not met |
| <b>Additional toxicological information</b>                                      |                                    |
| <b>CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)</b> |                                    |
| <b>Germ cell mutagenicity</b>  | Classification criteria is not met |
| <b>Carcinogenicity</b>   | Classification criteria is not met |
| <b>Reproductive toxicity</b>   | Classification criteria is not met |
| <b>STOT-single exposure</b>  | Classification criteria is not met |
| <b>STOT-repeated exposure</b>  | Classification criteria is not met |
| <b>Aspiration hazard</b>   | Classification criteria is not met |

## 12 Ecological information

|   |                                   |
|---|-----------------------------------|
| <b><u>Toxicity</u></b>                          |                                   |
| <b>Aquatic toxicity</b>                         | No relevant information available |
| Persistence and degradability                   | No relevant information available |
| <b>Behaviour in environmental systems</b>       |                                   |
| Bioaccumulative potential                       | No relevant information available |
| Mobility in soil                                | No relevant information available |
| <b><i>Additional ecological information</i></b> |                                   |

|                                    |   |
|------------------------------------|---|
| General notes                      | Do not allow large quantities of undiluted product to reach ground water, water course or sewage system |
| Results of PBT and vPvB assessment | Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water                |
| PBT                                | Not applicable  |
| vPvB                               | Not applicable  |
| Other adverse effects              | No relevant information available   |

### 13 Disposal considerations

#### Waste treatment methods

Recommendation Small quantities can be disposed with household waste.

#### Uncleaned packaging

Recommendation Disposal must be made according to official regulations.

Recommended cleansing agents Water, if necessary together with cleansing agents

### 14 Transport information

#### UN-Number

ADR, IMDG, IATA Not regulated

#### UN proper shipping name

ADR, IMDG, IATA Not regulated

#### Transport hazard class(es)

ADR, ADN, IMDG, IATA

Class Not regulated

#### Packing group

ADR, IMDG, IATA Not regulated

Environmental hazards Not applicable

Special precautions for user Not applicable

Transport in bulk according to Annex II of Marpol and the IBC Code Not applicable

UN "Model Regulation": Not regulated

### 15 Regulatory information

#### Safety, health and environmental regulations/legislation specific for the substance or mixture

Directive 2012/18/EU

Named dangerous substances - ANNEX I None of the ingredients is listed

Chemical safety assessment A Chemical Safety Assessment has been carried out

### 16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship

## Abbreviations and acronyms

ADR: Accord relatif au transport international des marchandises dangereuses par route (European Agreement Concerning the International Carriage of Dangerous Goods by Road)  
IMDG: International Maritime Code for Dangerous Goods IATA: International Air Transport Association  
GHS: Globally Harmonised System of Classification and Labelling of Chemicals EINECS: European Inventory of Existing Commercial Chemical Substances ELINCS: European List of Notified Chemical Substances  
CAS: Chemical Abstracts Service (division of the American Chemical Society) VOC: Volatile Organic Compounds (USA, EU)  
LC50: Lethal concentration, 50 percent LD50: Lethal dose, 50 percent  
PBT: Persistent, Bioaccumulative and Toxic vPvB: very Persistent and very Bioaccumulative

## Annex: Exposure scenario

|  |   |
|--|---|
| Description of the activities / processes covered in the Exposure Scenario             | See section 1 of the annex to the Safety Data Sheet |
| Physical parameters  |   |
| Physical state   | Fluid   |
| Concentration of the substance in the mixture  | The substance is main component                     |
| Other operational conditions   |   |
| Other operational conditions affecting environmental exposure                          | No special actions required                         |
| Other operational conditions affecting consumer exposure                               | Not required.<br>Keep out of the reach of children  |
| Other operational conditions affecting consumer exposure during the use of the product | Not applicable                                      |
| Risk management measures   |   |
| Worker protection  |   |
| Organisational protective measures   | No special actions required                         |
| Technical protective measures  | No special actions required                         |
| Personal protective measures   | No special actions required                         |
| Measures for consumer protection   | No special actions required                         |
| Environmental protection measures  |   |
| Air  | No special actions required                         |
| Water  | No special actions required                         |
| Disposal measures  | Ensure that waste is collected and contained        |
| Waste type   | Partially emptied and uncleaned packaging           |
